

E-CLEAT™ WORKING TRACTION®

Model JD425

E-CLEAT™ Working Traction® is an aggressive, industrial grade ice cleat that fits easily and conveniently over all types of shoes and boots. Meant for extended outdoor use only, the E-CLEAT™ Working Traction® is also lightweight and virtually inconspicuous on the user's foot.

The traction comes from 26 aggressively exposed, or "high-profile," tungsten carbide studs. The tungsten carbide studs are molded in for maximum durability and allow employees to walk confidently in harsh winter conditions.
