

# ICEGRIPS®

Model JD4472

ICEGRIPS® ice cleats are aggressive ice and snow strap-on cleats that fit over all types of shoes and boots. ICEGRIPS® are designed to fasten securely to your employees footwear and engineered for extensive winter walking.

The traction on ICEGRIPS® ice cleats comes from 22 tungsten carbide stud ice grippers underfoot that aggressively handle the winter's harshest conditions. The spikes for these strap-on cleats are molded into the sole for maximum durability and surrounded by an aggressive treaded sole for additional traction in snow environments. ICEGRIPS® feature the patented Angle Tread™ design for maximum surface contact and self-cleaning.
