

LOW-PRO® HEEL

Model JD310

The LOW-PRO® HEEL ice cleat is a compact and light weight ice and snow walking device that fits easily and conveniently over all types of shoes and boots. It is extremely easy to use and can be put on or taken off in seconds. Weighing in at less than 4 ounces per foot, the LOW-PRO® HEEL is virtually inconspicuous on the user's foot or when carried in a pocket.

Central to the LOW-PRO® HEEL design is the 14 minimally exposed tungsten carbide studs that allow the wearer to gain traction in winter conditions while still being able to navigate clean surfaces with reduced risk of surface damage.

SIZING:
